## Reference letter

Odyssey Logistics Sp. z o.o. has been working with Business Mind Sp z o.o. since March 2018. We have first started with accounting service and in July 2019 we have added also HR and payroll services.

Our cooperation has always been based on honesty and partnership. I personally have never been feeling left alone with my problems and I have always received needed help.

Small issues that naturally happen during normal cooperation, have always been tackled with pro-customer approach.

We have survived together: changes of the law, year ends and many other events, at the end always successful. This brings me to the point that I would like to thank you colleagues from Business Mind for their dedication and engagement. I can only recommend cooperation with Business Mind.
